

TIMBER INDUSTRY DEVELOPMENT DIVISION
REPORT ON EXPORT OF WOOD PRODUCTS, DECEMBER 2012

SUMMARY

Ghana realised **Euro 9,982,158** from the export of **24,035m³** of wood products in December 2012. The figures indicate increases of **38.87%** and **14.34%** respectively, over the **Euro 7,187,938** earned from the export volume of **21,020m³** recorded in December 2011.

Cumulatively, the country realised **Euro 99,836,394** from the export of **251,346m³** from **January – December, 2012**. Comparatively, the figures show **declines of 21.45%** and **7.07%** respectively, over the same period of 2011 when Euro 107,431,995 was realised from the export of 319,843m³.

The figures also show that the overall Average Unit Value (Total Value in Euros/Total Volume) increased from 336 Euros/m³ in 2011 to 397 Euros/m³ in 2012, indicating an improvement of 18.15%.

One hundred and sixty (160) Exporters were involved in the export of various wood products to **Sixty four (64) countries worldwide** during the year. The top Twenty (20) Exporters accounted for **175,687m³ (69.92%)** valued at **Euro 73,142,565 (73.26%)**.

Primary products (Poles and Billets) accounted for **Euro 2,614,079 (2.62%)** and **10,863m³ (4.32%)** of the total wood export earnings in 2012. The figures show shortfalls of 60.53% and 46.04% in volume and value, respectively compared to the export in 2011 of 27,525m³ valued at Euro 4,844,101 and may be explained by the dwindling production from government plantation sources.

Secondary wood products (mainly Lumber, Boules, Veneers and Plywood) formed the bulk of the country's wood exports and contributed **Euro 90,078,724 (90.23%)** from a volume of **227,877m³ (90.70%)** to the total wood products exports in 2012. In the previous year 2011, secondary wood products export amounted to Euro 93,226,150 (86.78%) from a volume of 274,884m³(85.94%).

Tertiary Wood products (comprising Mouldings, Flooring, Dowels and Profile Boards) contributed Euro 7,143,591 from a volume of 12,506m³ to the total wood products export in 2012. In terms of percentage contribution, tertiary wood products accounted for 7.15% in value and 4.98% in volume. The figures show decreases of 28.27% in volume and 23.69% compared to the 2011 contribution of 17,434m³ and Euro 9,361,744.

Africa emerged as the major destination for Ghana's wood products export during the year. Exports to various African countries in 2012 amounted to **Euro 38.37 million (38.43%)** from a volume of about **140,190m³ (55.80%)**. In 2011, the continent accounted for 51% of total volume and 37.51% of total value of wood products export from Ghana.

The **ECOWAS** market (mainly **Nigeria, Niger, Senegal, Burkina Faso, Togo, Benin, and Mali**) accounted for at least **71%** of the total African imports of Ghana's wood products in 2012. Imports included mainly plywood and lumber.

It is worth noting that export of Lumber (Overland) to neighbouring countries in the ECOWAS Sub-region registered a volume of only 3,968m³ valued at Euro 423,529 in 2012. The figures indicate significant drops of 86.12% and 82.14% respectively, from the 2011 export levels. This may be attributed to measures that were put in place during the year to check the export of illegal lumber across the borders of the country.

Exports of Ghana's wood products to **Europe** reduced from a volume of **63,890m³** in 2011 to **52,020m³ in 2012** and accounted for just **20%** of total export volume recorded in 2012. In terms of export value, Europe accounted for **Euro 28.70 million (28.75%)** of total exports in 2012 from the level of **Euro 29.05 million** recorded in 2011.

The **Middle East** and the emerging markets in **Asia / Far East** together accounted for **19.08%** of total export volumes from Ghana during 2012 and **25.45%** of total value of wood exports.

America, notably United States and Canada imported over **11,000m³** of Ghana's wood products (mostly veneers) representing **4.42%** of the total export volume from the country during the year. In terms of earnings, America contributed about **Euro 7.32 million (7.33%)** of total wood products export in 2012.
